

FULL HOUSEHOLD

PURIFIED SYSTEM

When did you change the outdoor filter?

“ 3 years ago? 5 years ago?
Difficult to reverse wash?
Is it safe? ”

EASY

1

Easy reversed
washing

2

DIY Change
Filter

3

High
Durability

Restriction of Hazardous
Substances Directive

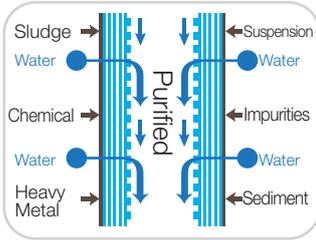

As complying with
NSF/ANSI 42 & 61

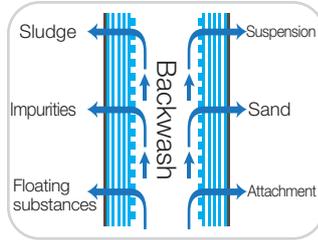

1 Easy Reverse Wash

Layers in the filter will remove impurities and sediment silt, by backwashing action, so that the waste water is discharged through the drainage outlets.

1. To extend the life of filters
2. To increase the filtering effect of filter
3. Easy to operate

Purify

Backwash

Hold the handle with two hands

Turn counter-clockwise for backwash

Complete backwash then turn back to original location

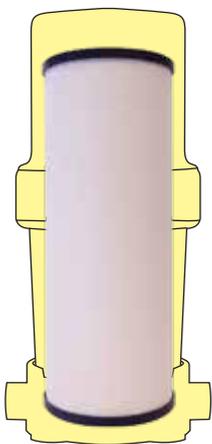

Pressure gauge

When the filter surface impurities accumulate, the penetration of water is reduced, making the filter pressure rise. After the filter "Reverse-Wash" process, water will be filtered efficiently, and then the pressure will be reduced. Therefore, when the pressure gauge is at 2kg, the user needs to reverse-wash the filters.

2 DIY Change Filter

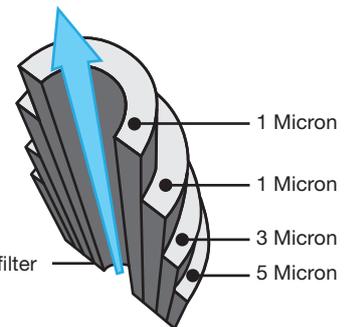

Hydrophobic Polypropylene (PP) Fiber Filter

Filtration membrane treatment used in line with USA FDA standards, aperture 5 micron can effectively remove thick solid precipitate filtered water for "physical pollution", effectively filter the water, sediment, sludge, impurities, rust, suspended substances the matter is still visible to the naked eye, in order to ensure that the water turbidity, maintain standards.

Product Features

- Filter has the first **42 US NSF certification** and product with **US FDA Standards**
- **4 layers with (5μ,3μ,1μ,1μ)micron**, High durability
- **100% fiber** filter hydrophobic polypropylene

4 layers fiber filter

The world's top carbon active

Coconut shell activated Carbon Filter

National SGS certification, coconut shell help and very strong process in adsorption to activated carbon, the effectively remove the "chemical pollution" in the water specifically **heavy metal such as pesticides, herbicides and luethylene bleach, pesticides trihalomethanes, the chlorine plasma or chemical**. Finally the result will contribute to household to get healthy drink water.

- Specification
- Water (packaged) : <4%
 - Ash : <3.0%
 - Carbon monoxide adsorption amount : >60%
 - Iodine adsorption value : >1100mg/g
 - Hardness : >99%
 - Dissolved water quality : <0.2%
 - PH value : pH7-pH8

DARE to drink this type of water?

3 High Durability

Warranty 2 years

Enclosure with 6 pressure, every square centimeter can stand 5-10kg
Filter shell is 10mm thickness

- Shell made of POM material
- Anti-UV
- Acid Proof & Alkaline Proof
- Anti-Corrosion resistance
- Protective jacket to waterproof and dustproof

Filter cartridge can filtered 1000-2000 tons or more

Replace the filter every 2-3 years

4 layers with 10 micron of filter cartridge

The product durability more than 8-10 years & above

Before Purifying

After Purifying

After Purifying

Suggestion 1

Suggestion 2

Effectively filters the water

- Sand
- Sludge
- Impurities
- Rust
- Suspension

Effectively filters the water & removes

- Organic material - toxin
- Heavy metals
- Microcystis
- Pesticides, Herbicides
- Odor and Suspension
- Chlorine
- Trihalomethanes
- Chloride

New Member Package

Outdoor Filter (PP) Medium **±RM240.67**
& above per month
SAVE RM1100

Code : NOD01M
 MP : RM4,048
VIP : (WM)RM2,888
(EM)RM3,088
 PTS : 600

Outdoor Filter (UDF) Medium **±RM182.67**
& above per month
SAVE RM1667

Code : NOD03M
 MP : RM4,955
VIP : (WM)RM3,288
(EM)RM3,488
 PTS : 700

Outdoor Filter (PP) Small **±RM240.67**
& above per month
SAVE RM1100

Code : NOD02S
 MP : RM3,688
VIP : (WM)RM2,588
(EM)RM2,688
 PTS : 500

Outdoor Filter (UDF) Small **±RM149.33**
& above per month
SAVE RM1360

Code : NOD04S
 MP : RM4,088
VIP : (WM)RM2,688
(EM)RM2,788
 PTS : 600

Medium

Product Code	OD01 (Y / G)
Specifications	Diameter : 30cm Thickness : 1cm Height : 72cm
Water Supply Volume	Effective filter water volume for more than 5 tons of water
The Scope of application	Household family 5-10 people
Filter Material	First filter (yellow) : Porous PP fiber 5 micron Second Filter(green) : The world's top active carbon filter UDF
Durability/Period	Above 10 years
Suitable for	Outdoors, Buildings, Apartments, Restaurants, Swimming Pool, School, Beauty SPA Center, Hospitals, Factories, Groundwater Water Users.
Warranty Period	2 years (Shell only)
Free Jacket	Yes

Small

Product Code	OD02 (Y / G)
Specifications	Diameter :30cm Thickness : 1cm Height : 55cm
Water Supply Volume	Effective filter water volume of more than 3 tons of water
The Scope of application	Household family of 1-4 people
Filter Material	First filter (yellow) : Porous PP fiber 5 micron Second Filter(green) : The world's top active carbon filter UDF
Durability/Period	Above 10 years
Suitable for	Outdoors, buildings, apartments and normal family usage
Warranty Period	2 years (Shell only)
Free Jacket	Yes

SERVICE

- Professional technical & customer service team
- Product warranty for 2 years
- Include installation & GST 6%
