E-IONS

E-IONS 养生水具有 3 大功能包括含碱性负离子、小分子团水及抗氧化还原电位功能。

E-IONS 养生水投币饮水机是一项备受投资者瞩目的新项目，全球首创第一台使用卓越的日本煅烧烧结钛白金 24 μ m，投资者超过 300% 的回酬率，即将推出市场。

E-IONS 养生水投币饮水机，用 3 年时间精心研发，一台得来不易的饮水机，E-IONS 首开先河，“颠覆传统，创新福众”，全心全意打造“共商共享共赢”概念，与投资人共享盈利，与民共享健康好水。

共商共享共赢

健康好水新商机

今时今日，很多人为了保健，宁愿购买瓶装 500ml 的碱性水，价钱介于 2 令吉 50 仙至 5 令吉不等，而 E-IONS 养生水投币饮水机的 500ml 只需要 50 仙。

尤其在这新时代，卖水绝对是一项投资新商机，例如酒店、办公楼、医院、学府、公寓别墅、超级市场、商场、宿舍、运动中心、健身房等，甚至拓展至国外市场，如今卖水已成了投资项目的大蓝图，启动了让人振奋的好商机。

E-IONS 养生水投币饮水机的作用，对投资者而言，主要当然就是回酬率。假设以最低销量来计算，一天卖 100 公升，一个月至少有 3000 令吉，如果一天卖 1000 公升，就有 3 万令吉，回酬率高达 300%。一架饮水机只需 3 万 9900 令吉，并有专业技术人员提供更换滤芯与维修服务。

根据计算，3 年内至少净赚 10 万令吉收入，尤其今夫夫人都对保健意识甚为关注的时代，卖水已开拓保健市场的一门新商机。

E-IONS 之所以颠覆传统，因为在共享经济的时代里，一天只需 2 令吉，就可以喝到 2 公升的健康碱性负离子水，价钱方面堪比市场还来得更便宜，毕竟 E-IONS 养生水经过本地严苛的 SIRIM 合法认证，是值得信赖的品牌。

要食物和水维持生命。人体 70% 都由水组成，难以想像，假如我们每天都在摄取有害的受污染水，将导致身体变成酸性体质，逐渐形成致癌因子——自由基。久而久之，无病生小病，小病也会变大病，导致现在的疾病走向年轻化，频频出现各种文明病，例如尿酸、糖尿病、高血压、癌症、心脏病等。

1995年经过科学研究分析，证实电解离子水确实可以有效清除人体内致癌因子的“自由基”，改善慢性病。并根据日本理学博士二宅莹水博士表示，“过度疲劳或压力将可能导致疾病缠身，想要改善疾病症状，不能只靠药物，人体既有的自愈力才能让疾病远离你。日本临床报告证实，碱性离子水的确能提升自愈力。电解硷性离子水能将体质从酸性变为弱碱性，强化人体原有的抗菌性，让你从根本上增强抵抗力”。

同时，E-IONS 养生水投币饮水机主要宗旨，让人人都有好水喝，可以帮助中下阶级家庭，亦可以让学校、住宿的学生饮用，或者热爱运动保健的人民，随时可喝到健康的好水，也为投资者制造新商机。

E-IONS 自 2009 年创办，由邹鏖陞与黄慧艾夫妻联手经营，多年来，事实证明电解硷性负离子水对身体健康的帮助，起了一定的疾病疗效和养生效果，奠定顾客对产品的信心，回头率甚高，每年业绩蒸蒸日上。

现代人用健康换财富

E-IONS 创办人邹鏖陞坚信，要建立一个“永续经营”理念，首要条件就是“责任感”。唯有诚心对自己负责的人，才会对家庭、社会和国家负责任。一个有责任感的人，就会培养出待人以诚的人格特质，从而建立诚信的价值观。有诚信的人，懂得尊敬自己，也懂得尊敬他人。在一个企业，如果人家都能互相尊敬，就会产生互相感恩的精神文化，进而奠定企业永续经营的根基。

所以，他们时刻秉持“责任、诚信、尊重、感恩”4大理念，以落实永续经营的目标。邹鏖陞说：“我们必须抱着‘老板的心态，员工的时间’来经营生意，怀着老板该有的远大目标，如员工般每日殷勤工作”，这就是他一直以来为事业奋力打拼的成功之道，并坚持“人与店及网络的事业”，将是现今与未来大趋势。

很多人都不知道，卖水已经是一种时代新投资，相比于房地产、股票等，算是低成本投资，尤其当我们置身在一个对保健意识甚为关注的年代，几乎每家每户都在安装过滤水。不过在林林总总的品牌里，很多人都不知道，如果电解槽没有符合卫生标准，或者没有定时更换和清洗，好水也会变成坏水，导致有害人体。

明日之星，全球第一台“E-IONS 养生水投币饮水机”，秉持5大卖点“安全、效果、品质、价值、服务”，打造全球专利的绝佳品牌，以最佳的诚信理念与创新策略，与商共享盈利，开拓新商机，与民共享经济，人人有能力喝健康好水，保护身体健康，E-IONS 就是造福人民健康的好水。

E-IONS 养生水投币式饮水器的与众不同：

- 1) 符合国内卫生部标准，合法并持有 SIRIM 检验报告。
- 2) 特大 6 支滤芯，符合国际标准认证。
- 3) 电解槽采用日本 KOBELCO, 12 片日本煅烧烧结钛白金。
- 4) 效果明显，改善疾病。
- 5) 去除室内异味、去口臭、去鱼与肉的腥味。
- 6) 3 语视频广告与短片解释。
- 7) 专业技术人员提供更换滤芯与维修服务。

BEFORE 使用前

A year ago, my blood glucose index was 14.5mmol which is very high, where I require to take medicine for a long period of time. I asked the doctor if there was any way I could lower my blood glucose index. The doctor recommended I to take insulin but I rejected as I do not want to rely on insulin so I decided to find alternatives ways by my own.

一年前，我的糖尿指数是14.5mmol，指数是非常的高，需长期服用西药。我问医生有什么办法可使我的糖尿指数下降，医生告诉我必须打insulin（胰岛素）。我告诉医生我不要靠insulin，我自己再想其他的方法。

AFTER 使用后

In such coincidence, Mr. Chow Saik Thean introduced me E-IONS ionized water system where it have anti-oxidant functions that can reduce free radicals and blood glucose in my body. After I listened, I decided to give it a try and bought a E-IONS ionized water machine with the model of S700CW. After I consumed for a month and a half, my blood glucose index dropped from 14.5mmol to 6.5-7mmol. I would like to take this opportunity to tell everyone about my own experiences and benefit more people.

又一次的谈论中，Mr. Chow Saik Thean刚告诉我E-IONS电解养生水机有抗氧化，可改善我们体内的自由基及糖尿病，于是，我听了后不如试一试，我和他购买一台model S700CW。我喝了一个半月后，我的糖尿指数竟然从14.5mmol下降至6.5-7mmol。我想借此机会把我本身的经历告诉每一个人，让更多人受惠。

好水应具备的条件

请想想我们每天喝的水应具备哪些条件？

- √ 不含有害物质（细菌、化学物质）
- √ 能取得矿物质平衡的水
- √ 为弱碱性的水
- √ 须为分子结构较小的，具有充分能量的水、渗透压要适合液体
- √ 导热及导电性要良好
- √ 要充分发挥清除活性氧酵素能力的水

为什么电解水是最安全、最进步、最健康的水？

经过水质评估，电解水和数种常见的饮用水比较发现，电解水具有上述好水的条件，能同时达到安全、健康疗效、美容功效的多用途要求，引用优良水质的电解水，除了改善体质，预防疾病，更有滋润健康，保养美容的效果，对家人和对各种慢性病患者，电解水是最佳的疗养品。

水质研究专家说：“正常的体质应属碱性，因为体质过酸，氧气便会减少。人体若过于酸性，骨头会时常疼痛，尿酸会多，长期以后，会形成许多令人畏惧的成人病如癌症、糖尿病、肝脏机能失调、高血压、心脏病等慢性病。因此，碱性水有助于中和酸性的体质，每天早上喝两大杯更为有效，同时，它也带抗癌的功能。”

“酸性体质的人比较容易老化，也容易觉得疲倦，对压力承受度较低，酸性体质的人常会感到焦虑不安，心神不宁，甚至失眠的现象，这和饮食习惯有很大的关系，所以我们在选择食物时要注意。即使，人体内酸性过多，不妨多喝电解水机分解出来的碱性水，能有效平衡体内的酸性体质。”

专家在研究之后的自来水通过带有直流电的电解分离设备会把水中，带正电的钙、钾、镁、钠等阳离子汇集到阴极成为带有负电位的氯、三卤甲烷、磷酸、硫酸、硝酸等阴离子汇集到阳极成为带有（+）电位的酸性化水。

现代人生活富裕，摄食过多肉类、糖分、酒精、蔬果中的残余浓药、添加物食品、化学药品、再加上环境污染，大多数人体内部积留过多酸性毒素，而这些造成癌症、肝病等文明病。

从电解水机分解出来的碱性水，能调节身体的pH值，使体内经常维持健康的碱性，也促使人体细胞及内脏器官之新成代谢、排除老废物质、增进血液循环和身体的自然治疗力，彻底改善体质的功效，让你常保活力与干劲。

CONSUME IONIZED HYDROGEN WATER

IMPROVE AND MAINTAIN HEALTH

21st century is not only an era of developed science and technology, but also the rising of information technology development which brought mankind to a brand new era. Although the world is built up by networking system these days, however people nowadays have no time to leisure, but are even busier! Ministry of Health has warned that advancement of technologies had cause people these days who pursue their own career and better living lifestyles neglecting their own health, resulting a steep increment in the number of people suffering cancer, diabetes, high blood pressure, heart disease and etc.

It is well known that health is more important than wealth. 70% of our body consists of water and human blood accounts for 83% of human body composition. Water is not only the source of life, but good quality water is the root of healthy. Scientifically proven that water quality is important and directly affect human health, whereas electrolytic water fulfilled all the good water conditions. In human body, 70% is water and it is the source of life to sustain. Physical health, vitality, youth and longevity of the secret, all in the water. Often contain good water in the body, naturally easy to maintain a healthy and beautiful.

GOOD WATER IS NECESSITY

What is good water? In order to decode the mystery of longevity, World Health Organization (WHO) conducted studies comprehensively in various areas with 'high rate of longevity' such as the Soviet Union, Japan etc. and found that the key of longevity is drinking water. Studies shows that the water in these areas are free from pollution and the water qualities are far different compared with drinking water in other major countries. The sampling test has confirmed that the water pH is weak alkaline, water molecules is smaller, rich in natural minerals, contain energy and have penetration power. Since then, the medical professions has started to research on producing the water in same conditions as the longevity village (Chang Shou Cun) which enables people to extend life expectancy as well as maintain healthy body by consuming good water. After years of research, the good water which is necessity in life has finally emerged, that is ionized water.

Medical research in recent years confirmed that the vast majority of chronic diseases are caused by free radicals (unstable molecules). As early as decades ago, Japanese knew that ionized water had a very significant effect but without any scientific evidence they just called this water as "Miracle Water" or "Amazing Water". As late as in 1995, Professor Lu Feng Zhou, director of National Taiwan University of Biochemistry, affirmed that ionized water can effectively remove human carcinogen - free radicals, which able to improve a variety of chronic diseases.

After analyzed and comparing the water quality, ionized water is now recognized as the most safe and most advanced water in advanced countries. Ionized water which generated by ionized water machine able to remove carcinogenic chemicals such as chlorine in tap water. Consumers are able to enjoy the health-care function of ionized alkaline water (electrolytic reduction water, OH-) as well as make cooking more delicious; at the same time, the benefits of hydrogen water (electrolytic oxidized water, H+) as natural detergent and beauty care. Benefits of ionized alkaline water with the best quality of water allows you to have the best physical fitness, nourishing health, beauty care, economical and easy to use. Ionized water has become necessary for human body as well as environment in modern era.

GOOD WATER SHOULD HAVE THE CONDITIONS

Please highly reconsider about what conditions should have in our daily drinking water?

√ Does not contain harmful substances (Bacteria, Chemicals etc.)

√ Natural Minerals Balanced

√ Weak alkaline

√ Smaller molecular structure with full of energy and able to process suitable osmosis process

√ Good thermal and electric conductivity

√ Able to clear free radicals

WHY IONIZED WATER IS THE SAFEST, THE MOST PROGRESSIVE AND THE MOST HEALTHY WATER?

After water quality assessments, comparison of ionized water and several common drinking water shows that ionized water fulfilled the above conditions, at the same time could achieve safety using, health care functions, beauty care functions. Using good quality of the ionized water could improve health, prevent diseases, more nourishing health and maintain beauty. Ionized water is the best health care product for families as well as patients who suffering chronic diseases.

Experts says: "The pH for Normal constitution should be in weak alkaline, as body acidity increase, oxygen level in our body will decrease. When the constitution is too acidic, the bones will often suffer pain and increase uric acid in body. After some time, various kind of dreaded diseases such as cancer, diabetes, liver disorder, hypertension, heart disease and other chronic diseases will formed. Therefore, ionized water could assist in neutralizing acidic constitution. Drink two cups a day every morning are more effective where the water contain anti-cancer function.

"People with acidic constitution are more prone to aging, easily feel tired, low pressure toleration, often feel anxious, restless and even insomnia. These phenomenon is closely related with the daily eating habits. Therefore, we should think before choosing what we consume daily. However, when human body is way too acidic, ionized alkaline water might as well could effectively balance the pH in our body."

Researches realized when tap water passes through a electrolysis separation equipment connected with direct current, the minerals with positive ions such as calcium, potassium, magnesium, sodium and other cations in the water will attracted to cathode which forms ionized alkaline water; whereas the minerals with negative ions such as chlorine, trihalomethanes, phosphoric acid, sulfuric acid, nitric acid and other anions in the water will attracted to anode which forms hydrogen water.

Modern people are rich and wealthy whereby they ended up consume too much of meats, sugar, alcohol, the chemical residual in fruits and vegetables, food additives, chemicals and etc.. Coupled with environmental pollution, most of the human body accumulated a lot of acidic toxins. Thus, it will triggers the cancer , liver disease and other chronic diseases to occur.

The ionized hydrogen water which decomposed from the ionized water machine, able to regulate the pH value of the body which maintain our body in weak alkaline condition. It also induces metabolism of the body's cells and internal organs, allows detoxification process, improves blood circulation as well as maintain the body's natural therapeutic power to completely improve our body's effectiveness, so that you could carry out daily routine with vitality.

饮用电解水

有病治病，无病养生

21世纪不但是科技发达的时代，资讯工艺的发达使人类迈向一个崭新的时代。尽管世界因网际网络而形成地球村，但时下的人们并不见得清闲，反而更加忙碌！根据卫生部提出的警告，现代的人民因为事业，工作，家庭打拼而忽略了健康，导致患上癌症，糖尿病，高血压，心脏病等的人数直线上升，到了令人担忧的指数。

众所周知，健康比财富更加重要，我们人体有70%由水分组成；而人的血液更占了人体成分的83%，水不但是生命之源，好水更是人类健康之本。科学家已经证明，水质的好坏对于人类健康有着直接和重要的影响，而电解养生水更是符合了好水的所有条件。人体中，70%是水。水是生命赖以维持的泉源。体质健康、生命活力、青春与长寿的秘密，都在水。身体中常含好水，自然就on容易保持健康与美丽。

生命不可或缺的好水

什么是好水？为了解开长寿之谜，世界卫生组织在苏联、日本等‘高比率长寿人口地区’做了深入的研究发现，饮用水是关键，那些地区的水纯净无污染外，水质和大部分地方的饮用水有很大的不同。经采样检验证实，该水水质呈弱碱性，水分子较小，富含人体需要的矿物质，且带有能量、具渗透力。从此医学界即着手研究，如何能以科学方法制造出长寿村有同样条件的水，世人就可藉喝水而得到健康、长寿。经多年研究，这种生命不可或缺的好水终于出现了，那就是‘电解离子水’。

近年来医学研究证实，绝大多数的慢性病都是自由基（活性氧）惹的祸。早在数十年前，日本人就知道，电解离子水具有极显著疗效，只是苦于没有直接的科学证据，仅称之为“神水”，“惊异之水”，直到1995年台大生化研究所所长吕锋洲教授研究证实，电解离子水确实可以有效的清除人体致癌因子-自由基，可改善各种慢性病。

经过水质分析比较，电解离子水已是目前先进国家公认最安全、最进步的好水。以电解水生成器所生成的离子水，即可去除自来水中氯气等致癌化学物质，能随心所欲享用具保健功效的碱性离子水（电解还原水），让烹调更美味；同时还能调制具美容效果的酸性离子水（电解氧化水）。饮用具有最优良水质的碱性离子水，就能拥有最优良的体质；滋润健康、保养美容，经济又好用，电解水已成为现代人不可或缺的体内环保用水。

WHY DOES IT HAPPEN? 为何会老化?

THE MAIN CAUSES OF AGING

- The decrease of hormone secretion
- The aging and degeneration of cells
Free radicals cause degeneration

Q & A

1. Is there higher risk to get gallstone with consumption of calcium alkaline ionized water?

Often people worry about the risk of consumption of calcium ionized water will cause gallstones, but this is a huge misunderstanding. Indeed, analysis of gallstones contains some dry calcium; the main component is the cholesterol stones. The stone is the lack of calcium. Parathyroid hormone resulted in continuous release of calcium in the bones, so that the urine contains large amounts of calcium and acidic blood of the case generated by the cholesterol cure. If there calcium in the blood and drink alkaline water can dissolve gallstones. In order to avoid the bladder stones more calcium intake of water is necessary.

2. What is the difference for Calcium ionized and combine calcium?

Calcium is a very lively mineral chemistry, most of the other elements will combine with calcium, such as calcium phosphate, calcium carbonate (pearl powder, bone meal) and chemical calcium etc.

The calcium ionized in the water-soluble pre-ionization conditions, the active of the material was. Due to insoluble combination of general-type calcium such as calcium lactate, calcium sulfate, calcium carbonate, it cannot be ionized and are not easily absorbed by the body. Most of them excreted intact, even though some particles are absorbed without owing itself easily with the Department acidic use and likely to cause stones and other obstacles. The ionized calcium and soluble calcium absorption capacity of the body, and no acidic radical combination, so no side effects.

3. If the electrolyzed water stored for some time, there are white precipitate and will it affect the human body?

As the electrolyzed alkaline water contain Ca^{2+} , Mg^{2+} , other ionic minerals, and non-relative radical ion, it is very lively and easily absorbed. They are very active. Long-term placement in the air or boiling will cause the Ca^{2+} , Mg^{2+} react with the CO_2 and generate CaCO_3 , MgCO_3 and calcium oxide (a white precipitate). Calcium oxide is easily absorbed by the body but does not damage human body. But this compound makes the human body hard to absorb calcium.

4. How long is the Electrolytic reduction of water retention time? What is the different effect after cooking?

Electrolyzed water to be recognized and widely used depends on its ability to restore strength and oxidation. Among electrolyzed water can whether be effectively used, depending on the redox potential whether exists in the ideal range of effective (reduction potential between in-250mv ~ 400mv), left the effective range, the effect will be greatly reduced. Therefore, electrolytic reduction of water in a closed and not exposed to the sunlight, can maintain 6 to 8 hours, stored in freezer up to 72 hours.

5. Is there any difference in E-IONS alkaline healthy water and alkaline water?

Both are completely different. Both common but the pH is alkaline. Alkaline water is not necessarily a small molecule. It does not have negative potential, do not have other characteristics of alkaline water, not clean and do not have medical care functions.

6. Why should drink E-IONS Ionized Healthy water 1 hour before going to bed?

Calcium because people sleep at night are most vulnerable to loss of calcium. The water full of blood lowers the blood viscosity, prevent stroke, blood clots and control hormone.

7. Does drinking E-IONS Ionized Healthy water has long-term harmful effects?

Not harmful. Just like eating vegetables, fruits and other basic foods, electrolysed water is alkaline drinks. Long-term drinking can make the body content alkaline. Furthermore, electrolysed water for drinking has been in Japan's history for 70 years. As early as the 1960s, water ionizer has been in Japanese Ministry of Health (equivalent to China's Ministry of Health) as medical devices and for clinical. Electrolysed water is based on longevity areas in the initial characteristics of water created by high-tech means, have been verified whether in practice or management theory.

8. How long can the E-IONS alkaline Ionized Healthy water be stored?

Electrolysed water promotes healthy lifestyle. Therefore the fresher is better. It is based on different storage conditions and storage time. Usually at room temperature under exposed conditions, the water can remain active for about 12 hours. In the dark and sealed conditions the water can be maintained for 48 hours. If the electrolysed water kept at dark, sealed and at the same time refrigerated, it can be stored for 3-12 days and the characteristics of electrolysed water will not change much.

9. Why should elder people must drink more E-IONS Ionized Healthy water?

Osteoporosis is a common disease among elder people. According to the survey, in the age of 60, the abnormally low bone mineral density indicate osteoporosis where in women the chances are 50 percent and 10 percent in males, which can easily lead to fractures. The most common vertebral compression fractures are at the back, followed by long bone fractures and rib fractures. In addition, bone and joint pain can cause discomfort, loose teeth and other symptoms. Now we cannot replace the lost bone but alkaline electrolyzed water can help the body to absorb calcium ion, so can lead to strong bones.

10. Why drinking E-IONS pH10 ionized healthy water will get taste odor after during period of time?

Because after drinking e-ions pH10 ionized healthy water for a period of time, there are a lot of calcium stuck in the electrolytic cell, only need press (pH5.5) let the machine wash, and water run for 5 minutes to eliminate the odour.

11. What water is suitable for boiling Traditional Chinese Medicine or Herbs?

E-IONS Ionized Alkaline Water is suitable for boiling as the pH of traditional Chinese Medicine or Herbs are mostly alkaline.

12. Does consume E-IONS Ionized Water for long term will cause reduction of immunity system?

No. Consume E-IONS Ionized Water regularly will improve acidic constitution which allows our body maintain weak alkaline and increase our immunity as well we resistivity.

13. What types of diseases can be improve effectively with consume E-IONS Ionized Water?

Constipation, Acid reflux, Heart burn, Gastric Ulcer, Loss of appetite, etc. Effect on improve shows after one week. (Effectiveness varies individual)

14. How is E-IONS Ionized Water System process the water?

Tap Water will pass through 3 types of filter → Pass through far infrared tube to reduce the 'coldness' of water → Japan Platinum Baked Titanium → 2 Kinds of water processed (Alkaline & Acidic) → To maintain or improve health

15. Why E-IONS Ionized Water System so expensive?

This is not a normal purifying system, it is a healthy ionized water for your family & friends!

Effectiveness of the product is fast, if you want to buy a normal water filter (pH is around Neutral), E-IONS have a UF Energy Water Dispenser for only RM2,488.

常见问与答

1. 常喝电解碱性钙离子水，会不会容易结石？

常常有人担心摄取过多的钙离子水会不会引起结石，但这是很大的误会。的确分析结石时，其中含有若干的钙，但事实上，结石的主要成分为胆固醇，即结石是缺乏钙，致使副甲状腺荷尔蒙不断释出骨骼中之钙，使尿中含有大量的钙，并在酸性血液之情况下由胆固醇之固化而生成。如果血液有钙离子而倾于碱性，反而能溶解结石。为避免肾脏，膀胱造成结石，多摄取钙离子水是必要的。

2. 钙离子与结合型钙有何不同？

钙是一种化学很活泼的矿物质，大部分都与其他元素结合呈结合型钙，如磷酸钙，碳酸钙（珍珠粉，骨粉）以及化学钙片等等。

而离子钙则在溶于水的先决条件下离子化，使物质呈活性化。一般的结合型钙如乳酸钙，硫酸钙，碳酸钙因不易溶解，故无法离子化而不易为人体吸收利用，大部分都原样排除体外，即使部分微粒被吸收亦因本身系酸性结合而不易被利用，且容易造成结石等障碍。而离子钙及水溶性的钙容易被身体吸收利用，且无酸根的结合，所以无其他副作用。

3. 碱性水放置一段时间后，有白色沉淀物，会不会对人体造成影响？

碱性水富含许多钙离子，存放过程中会与空气中的氧结合而变成氧化钙（即白色沉淀物），或是在煮沸时亦会有类似情形产生，氧化钙只是较不易被人体吸收，但却不会对人体造成伤害。

4. 电解还原水保持时效多久？煮过后在功效上有何差异？

电解水得以被肯定及广泛运用，端赖其还原力及氧化力两种作用被有效发挥利用，其中电解水能否被有效运用，取决于氧化还原电位是否存在于有效理想区间（还原电位在-250mv~ 400mv之间），离开了有效区间，功效将大打折扣。所以电解还原水在密闭且不受日光照射的情况下，可保持6~8小时是时间，存放于冷藏室可达72小时时效。

电解水的三大特性：1. 碱性水 2. 小分子团水 3. 具抗氧化作用。若经煮沸，其抗氧化的作用会因加热氧化作用，使还原电位迅速递减，而失去抗氧化作用，碱性及小分子团的作用也会受到影响，因此在料理烹饪上有其特殊之功效。

5. 碱水与E-ions碱性电解养生水是不是一样？

完全是不一样的。相同之处只是pH值呈碱性，但碱水不一定是小分子水，不带有负电位，不具备碱性电解养生水的其它特征，既不洁净也没有医疗保健功能。

6. 为什么睡前一小时应喝E-ions电解养生水？

补钙，因为人在夜间睡眠后骨钙最易丢失；使血液含水充分，降低血液粘度，预防中风及血栓和调整人体的荷尔蒙。

7. 长期饮用E-ions电解养生水有没有害处？

没有害处。就像常吃蔬菜、水果等碱性食物一样，电解养生水也是碱性饮品，长期饮用只能使身体长期保持碱性体质。再者，电解养生水在日本饮用的历史已有70多年了，早在60年代，电解水机就被日本厚生省（相当于我国卫生部）指定为医疗器械，将电解养生水用于临床；并且，电解养生水最初也是根据长寿地区水质的特点通过高科技的手段制造出来的，无论是实践还是理论上，都经过了验证。

8. E-ions碱性电解养生水的活性能保持多长时间？

E-ions 电解养生水是活性水，提倡生饮，越新鲜越好。它的存放时间依据存放条件有所不同：一般在室温、敞口状态下，活性可保持12小时左右；在避光、密封的条件下可保持48小时左右；如果将电解水避光、密封同时冷藏，可存放3至12天，电解水的特性没有太大的变化。

9. 为什么老年人更应该喝E-ions电解养生水？

骨质疏松症是困扰老年人的常见病。据调查：60岁以上人群中，骨密度异常低下、显示疏松者，女性有百分之50，男性有百分之10，这会很容易引起骨折，最常见为脊椎压缩性骨折，其次为四肢长骨骨折、肋骨骨折。此外，还可引起骨关节疼痛不适、牙齿松动脱落等症状。目前尚无法使已丢失的骨质恢复，E-ions碱性电解养生水中的钙是离子状态的形式存在利于人体吸收，所以防重于治。

10.为什么饮用E-ions电解养生水pH10一段时间后会有腥味？

因为我们饮用E-ions电解养生水pH10一段时间后，因大量的钙离子卡在电解槽，只需要（按pH5.5）清洗五分钟后就不会有腥味了。

11.煮中药或煲药膳汤用什么水？

中药多数为碱性，可以使用E-ions电解水煲为宜。

12.长期饮用E-ions电解养生水会不会造成免疫力下降？

不会。经常饮用E-ions 电解水，会改善酸性体质，使体液维持碱性环境，从而使我们的抵抗力、免疫力增强。

13.E-ions电解水养生对哪些疾病见效快？

便秘、反酸、烧心、胃溃疡、食欲不振等，大概需一周即可改善。(情况因人而异)

14.E-ions 水机过程是如何？

自来水经过3只滤芯 → 再经过远红外线可让细胞活化，保持水不会寒冷 → 日本烧结式钛白金Japan Platinum Baked Titanium → 有两种水(碱性Alkaline 以及 酸性Acidic) → 对保健者养生，对文明病者治病

15.为何E-ions 水机那么贵？

这不是普通的过滤器，而是您一家人的电解养生水！

因为它的效果比较快，如您想买好像D牌子, A牌子的水机 (pH是在与中性水Neutral), E-ions有一台纯过滤能量水机只卖RM2488
