ACID Constitution

Formation of free radicals

Modern Diseases

This is not an ordinary vending machine but a MACHINE WHICH IMPROVES EVERYBODY HEALTH

Tap water will pass through six filters for filter out the mud, bacteria, chlorine and other harmful substances as well as reduce the 'coldness' of the water. Filtered water will then pass through 12 pieces of Japan Platinum Baked Titanium electrolysis plates (total of 24μm) to electrolyze and produce two types of water, which is Ionized Alkaline water (OH⁻) and Hydrogen water (H⁺).

Diabetes, Wound

Weight loss 10kg
